# Online Resume

In this assignment, you will begin building your online resume with HTML and CSS. Of course, there always room for improvements in every project. For this reason, we are going to complete this assignment in multiple stages.

Goal:

The goal is to have a responsive online resume you can showcase to any employer you would like to work for.

PROGRAMMING SKILLS

Wordpress
90%

PHP
80%

HTML
93%

CSS
80%

MySQL
70%

GRAPHIC SKILLS

- Adobe Photoshop
- Adobe Illustrator
- Adobe Indesign
- Corel Draw
- 3D Max

LANGUAGE SKILLS

English
French
Spain

EMPLOYMENT

There are many variations of passages   2003 – 2007
Director Of Department

Excepteur sint occaecat cupidatat non proident, sunt in culpa qui officia deserunt mollit anim id est laborum. Lorem ipsum dolor sit amet, consectetur adipisicing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua.

Cooper Union   2001 – present
Programmer

Excepteur sint occaecat cupidatat non proident, sunt in culpa qui officia deserunt mollit anim id est laborum. Lorem ipsum dolor sit amet, consectetur adipisicing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua.

EDUCATION

Lorem Contrary to popular belief   1999 - 2001
Web Design

Lorem ipsum dolor sit amet, consectetur adipisicing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua. Ut enim ad minim veniam, quis nostrud exercitation ullamco laboris nisi ut aliquip ex ea commodo consequat.

Lorem Ipsum is simply dummy text   1996 - 2000
Graphic Design

Ut enim ad minim veniam, quis nostrud exercitation ullamco laboris nisi ut aliquip ex ea commodo consequat. Duis aute irure dolor in reprehenderit in voluptate velit esse cillum dolore eu fugiat nulla pariatur.

Steps:

1. This may seem overwhelming but don't worry we will go in single steps. For this step you just need to layout the structure of the first session of the resume. This includes: an image, full name, title, general information, and a bio. You can always go back and re-structure the html. For now, let's think of one possible structure for this session. Of course, you are welcome to follow your own creative structure.
   a. Think of the entire resume inside a big container, let's call this container "main_container".
   b. Inside the main-container, we can have a session where we can put all the information required for this step, call it: session1
   c. Now inside session1, the simplest way to see it, is by visualizing three boxes. 1) for the image, full name, title 2) for the general information 3) for the bio
   d. Go ahead and start implementing it. After, play around with the CSS. Although we have not learned about the "display" property of CSS, it is pretty easy to understand and we encourage you to research it.
2. Now that you seem more of CSS such as class, id, selector precedence, display, and position, it's time to move forward. Before we move forward, go do research on the <aside> tag and the <hr /> tag. Now, almost the same thing applies here from step 1. Think about the session that has: "EMPLOYMENT", and "EDUCATION" as being in one container and the session with "PROGRAMMING SKILLS", "GRAPHIC SKILLS", and "LANGUAGE SKILLS" as being in another container. Then is about creating the correct structure inside those two containers. Hint: the container with the percentages and the circles are all boxes styled right! Go ahead and let your creativity shine.
3. Now that you have the structure ready, begin styling your online resume to look more like the photo above. When styling, use five different ways of selecting an HTML element (Including id, and class). If you been using internal styling, move everything to an external style sheet.
